Submission completeness

Status: SUBMISSION_INCOMPLETE

Required attachments declared: 6. Present: 1. Not supplied: 5.

Not supplied: ATT-FIN-01, ATT-FIN-02, ATT-QUAL-01, ATT-QUAL-02, ATT-FEE-01

Counts describe declared-vs-present documents in this pack only. This is not a readiness score and not University completeness.

The recovered Bid Invitation prints 2026-09-22 15:00 CT. The workshare carrier documents 2026-09-29 15:00 CT. UIOWA-132 pins 2026-09-22. This assembler does not pick a winner. Official eBid refresh is unconfirmed.

NOT_FILLED — blank has certification effect; no invented no-exceptions response

Principal remains prime; specialist remains subcontract. Roles are not collapsed.

1. Cover letter

This is an internal review draft for RFQ 18649, not a University submission.

TJLabs is proposed as a subcontract specialist. The principal remains the prime. See Section 2 (Commercial terms), page 5 for the workshare terms and Attachment ATT-PROP-01 (Detailed proposal (Attribute 9)) - see attachment index, page 2 for the prepared proposal text.

The all-inclusive prime Fee for Services is not supplied. See Attachment ATT-FEE-01 (Prime all-inclusive Fee for Services (Attribute 9 / Bid Line 1)) - PLACEHOLDER, NOT SUPPLIED - see attachment index, page 2.

draft_trigger: draft_delivery final_trigger: acceptance

Commercial terms (workshare, not prime fee)

This internal draft proposes a \$24,000 USD base TJLabs subcontract workshare with a separate \$4,000 readout option. The 40/40/20 split is \$9,600 kickoff packet, \$9,600 draft delivery packet, and \$4,800 final acceptance packet. Kickoff is after_award_no_travel. Travel is excluded_from_base. The principal is the prime. The specialist remains a subcontract resource and is not recast as prime.

The \$24,000 figure is not Attribute 9's all-inclusive prime bid fee.

Attribute 9 / Bid Line 1 remains Attachment ATT-FEE-01 (Prime all-inclusive Fee for Services (Attribute 9 / Bid Line 1)) - PLACEHOLDER, NOT SUPPLIED - see attachment index, page 2.

Deadline printed on the recovered Bid Invitation is 2026-09-22 15:00

America/Chicago. The workshare overlay reports 2026-09-29. That discrepancy is a currentness hold, not a silent correction.

3. Methodology

Four phases are described in the workshare exhibit: evidence register, 12-cell matrix, draft findings, and final package. Cross-reference the prepared proposal Attachment ATT-PROP-01 (Detailed proposal (Attribute 9)) - see attachment index, page 2 and the unresolved appendix [UNRESOLVED REFERENCE: S-APPENDIX-C].

Personnel evidence is Attachment ATT-QUAL-01 (Key personnel resumes (Attribute 10/11)) - PLACEHOLDER, NOT SUPPLIED - see attachment index, page 2. References are Attachment ATT-QUAL-02 (References / comparable engagements) - PLACEHOLDER, NOT SUPPLIED - see attachment index, page 2. Audited statements are Attachment ATT-FIN-01 (Audited financial statements, preceding two years (Attribute 19)) - PLACEHOLDER, NOT SUPPLIED - see attachment index, page 2. Annual reports are Attachment ATT-FIN-02 (Annual reports, preceding two years (Attribute 19)) - PLACEHOLDER, NOT SUPPLIED - see attachment index, page 2.

4. Exceptions and Attribute 15

Attribute 15 is optional, but a blank response has certification effect. This draft does not invent a no-exceptions certification. The field stays unfilled pending an authorized bidder.
